CATHOLIC SCHOOL IMPROVEMENT PLAN

2023

CEWA'S VISION

Catholic Education WA is a Christ-centred and child-focused community of engaged learning environments, inspiring all to actively live the Gospel.

SCHOOL'S VISION

To provide a safe learning environment, illuminated by faith, in which all students thrive.

CORE VALUES- 'CONCERN'

Concern for God
Concern for others
Concern for self

STRATEGIC INTENTS | 2022 – 2024

Strategic intents should be drawn from and complementary to CECWA's Strategic Directions (2019-2023) with the necessary alignment and recognition to the context of the school. Strategic intents are developed through a school-wide consultative process. The strategic intents are broad goals and success factors that can be articulated in more detail and action through the iterative School Improvement Plan. Through the cycle of strategic planning, when CECWA's Strategic Directions are renewed, a school will factor this in when its next cycle of strategic consultation and generation of new intents over a three-year period occurs.

CATHOLIC IDENTITY Inspiring Christ-centred Leaders

Goal(s):	Success Indicators:	Links to QCE Elements:
Promote connection to our school's mission and tradition, while promoting personal values in line with our Catholic perspective.	Members of the community being able to explain how they contribute to the traditional mission of our school. St. Pat's personal values becoming defined and developed.	Catholic Identity 1.1e
Increased focus on service to others and community involvement.	Structured 'service' program in place, with a system developed for ensuring increased community involvement for students of all ages.	Catholic identity 1.1d

EDUCATION Catholic Schools of Excellence

Goal(s):	Success Indicators:	Links to QCE Elements:
Identify and implement best pedagogical practice for our current context.	Development of a 'Vision for Learning' document. Evidence of positive growth in the achievement of all students from 2022-2024.	Education 2.3c
Increased focus on individualised learning, with maximum positive educational impact for each child.	Development of a range of individualised education plans, with evidence collected that all demographics of students are making positive growth.	Education 2.3e

COMMUNITY Catholic Pastoral Communities

Goal(s):	Success Indicators:	Links to QCE Elements:
Facilitate increased engagement between the school and all families.	A diverse representation of parents/carers present at school events and active on the P&F and other school bodies.	Community 3.2
Create opportunities for increased partnership between school and the local community.	Students to be a more frequent presence at community events and activities, with community members and organisations more frequently engaged with the school.	Community 3.3b

STEWARDSHIP Accessible, Affordable and Sustainable System of Schools

Goal(s):	Success Indicators:	Links to QCE Elements:
Identify and implement a plan for school promotion, focusing on affordability.	A promotion/marketing plan has been created and enacted, with input from all key stakeholders.	Stewardship 4.3a
Grow our reputation as a school with a modern educational approach and with contemporary facilities and resources.	Increased presence of a 21 st century learning pedagogy in the school. Evidence of strategically refreshing our facilities and resources.	Stewardship 4.3a

In considering the school's Strategic Intent over the next three years in Catholic Identity, Education, Community and Stewardship, together with the iterative Improvement Goals (collectively the Catholic School Improvement Plan), priority also needs to be placed on identifying faith formation and mission objectives. These are the foundation to any school improvement goal setting and can permeate across all four pillars.

It is recommended schools focus on three goals across a three-year period. The template below has been provided to schools at Evangelisation Planning workshops over the past 4-5 years and may be modified to suit the school's context. It is primarily based on staff formation because staff cannot effectively evangelise students unless they themselves are suitably formed. The following link to the [Accreditation for CEWA SharePoint](#) may provide a valuable resource for schools. This plan should be reviewed annually and schools are encouraged to utilise support from CEWA's Faith Formation Team. These goals are to be incorporated and infused through the Catholic School Improvement Plan.

CALL TO GROW IN DISCIPLESHIP <ul style="list-style-type: none"> Apostle's Creed Sacraments Life in Christ Christian Prayer 	Embed the Making Jesus Real program, while seeking to make it increasingly impactful and valuable for our school community	Prioritise staff training, collaboration and discussion in the MJR program	2023- identify and prepare opportunities for staff to engage in this focus area	MJR website, staff from other schools further ahead in their MJR journey	Increased presence of the language and values of MJR evident in our students	Schedule regular check-ins on our staff formation plan throughout 2023 (at least once a term)

Improvement Goals

School: _____

Year: _____

The Improvement Goals are not intended to capture all the strategic activities of a school but rather prioritise the key areas of focus that will have the highest impact on realising sustained and relevant improvement. Schools are encouraged to limit the number of goals established to maximise depth and impact of strategy. Similarly, this is an iterative document that aligns with the ongoing nature of change that occurs in a school in order to embed processes and practices that lead to a quality Catholic education. Regular monitoring, review and updating of these goals is encouraged and schools may find the addition of notes and/or appendices to capture significant milestones and achievements useful in celebrating success and establishing the next iteration of improvement goals.

There is an expectation that at least one goal for Aboriginal education and Early Years education (if relevant) be included.

ASSESSMENT DATA ANALYSIS for 2023

CSIP Goal 2023 (Education): **Mathematics**- continue to work at increasing engagement and achievement in Mathematics, through further embedding strategies implemented in 2022.

NAPLAN DATA (Numeracy)

Year 3

Historical data shows that there was a decline in the 2021 numeracy results, but there has been an improvement in the 2022 results. The current Year 3 students are a weaker group who require additional support in Mathematics. Our results are still below CEWA, State and National scores.

Year 5

Previous data shows that there was a decline in the 2021 numeracy results, but an improvement in the 2022 results. Our results are just below CEWA, State and National scores. This current group of Year 5's are competent in Mathematics, with a number of students receiving extension within class.

This is the mean score comparison table for Numeracy.

Comments

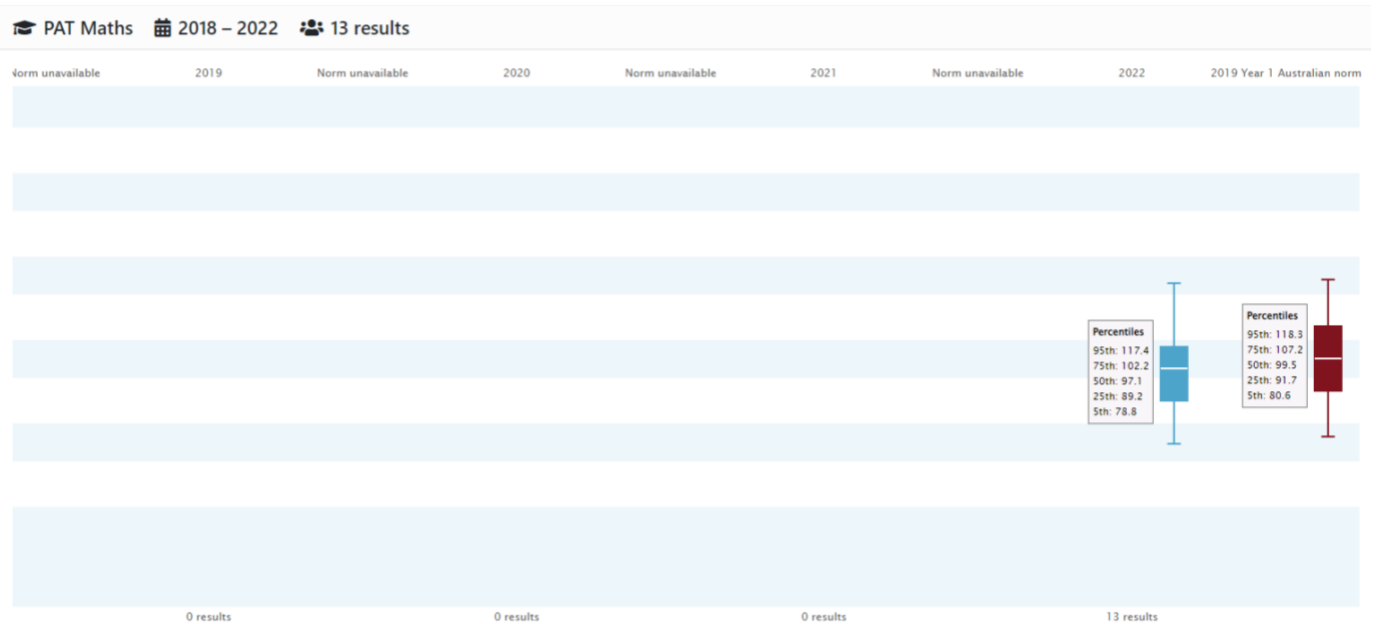

In 2022 there has been further implementation of strategies such as number talks, place value charts and Launch Explore Summarise. It will be interesting to see if there is further improvement to our results in future NAPLAN assessments. There is consistence between staff in their personnel over time and in their teaching strategies.

PAT DATA (Numeracy)

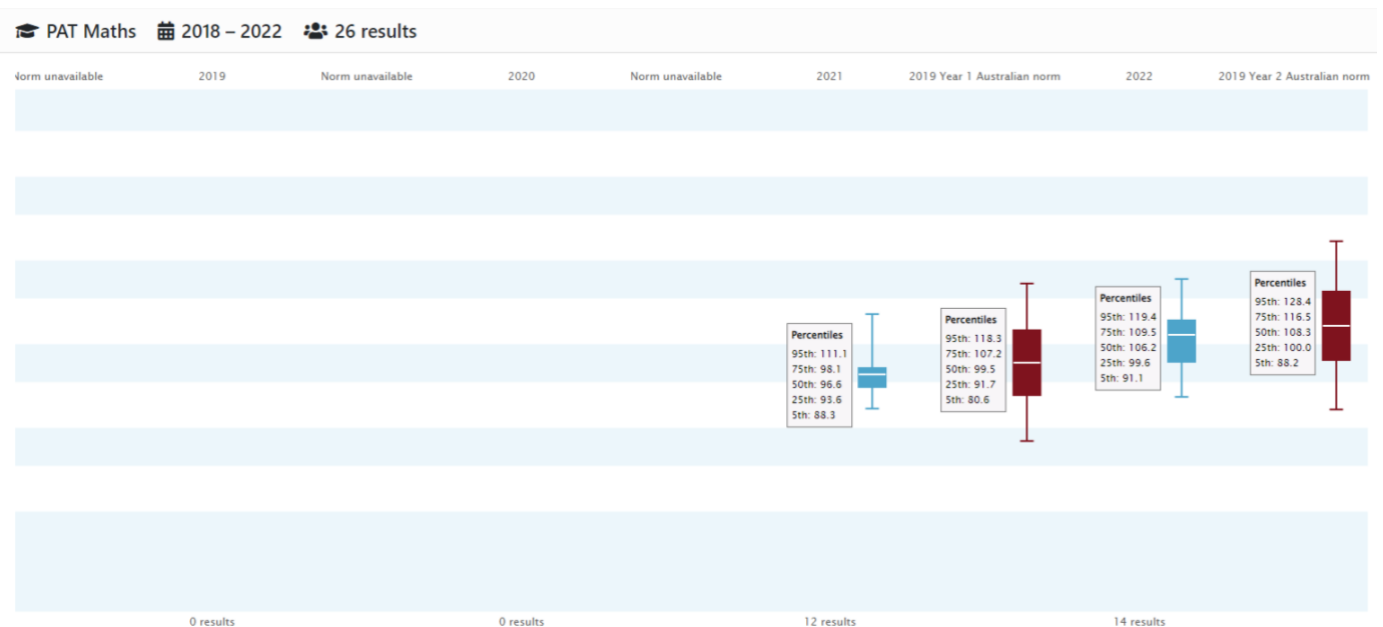

When comparing our NAPLAN assessments to the Pat Adaptive Analysis, we can get a clearer picture of strengths and weaknesses within the Numeracy domain.

This gives us more specific information of student's achievement and performance as a class and also individually.

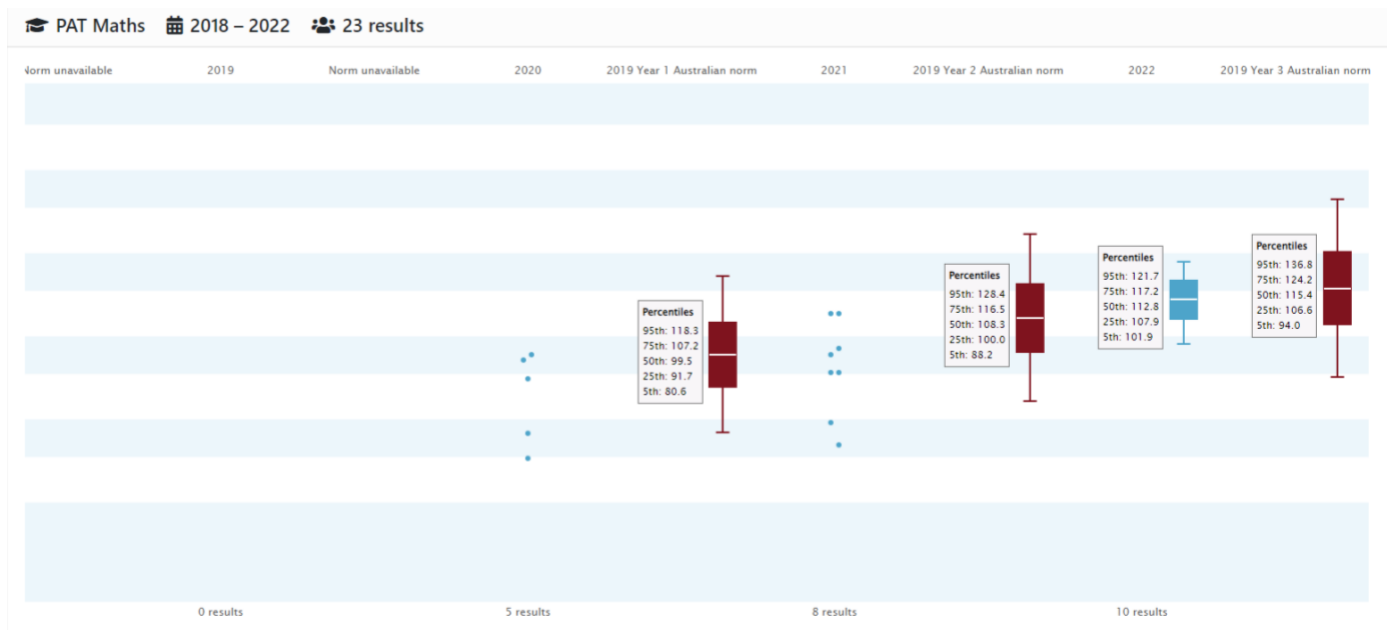

Year 1 results compared to Year 1 Norm data.

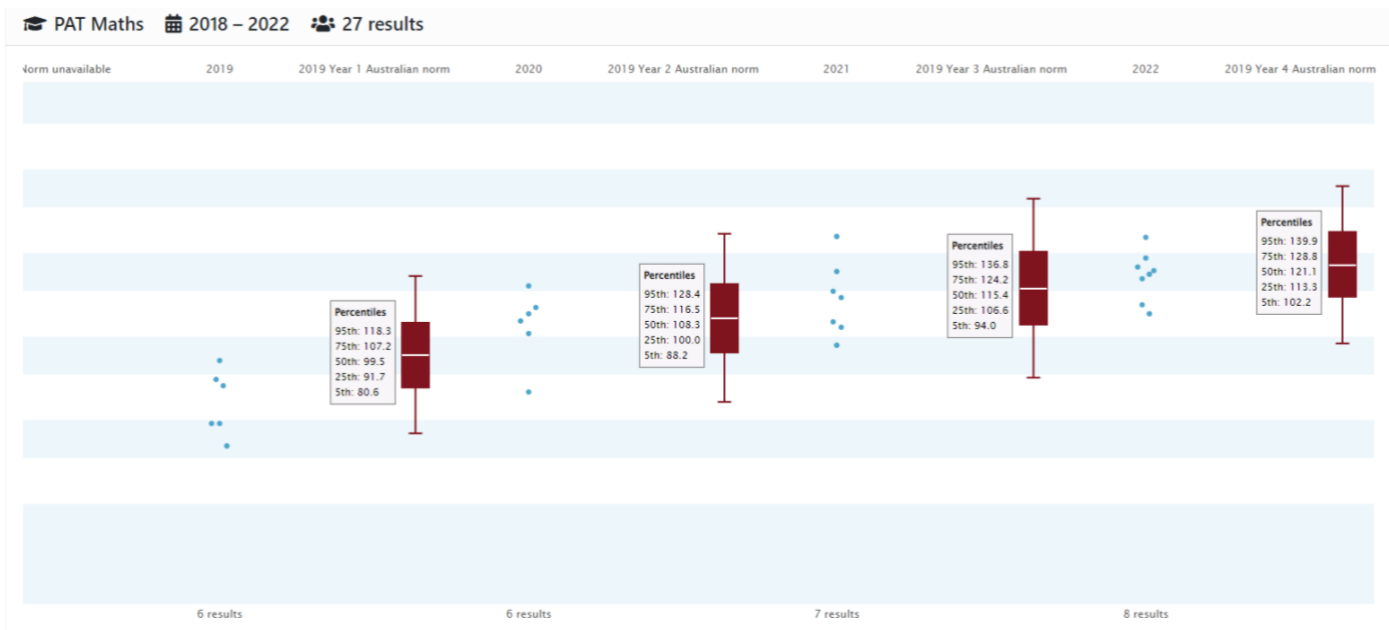

Year 2 results compared to Year 2 Norm data.

Year 3 results compared to Year 3 Norm data.

Year 4 results compared to Year 4 Norm data.

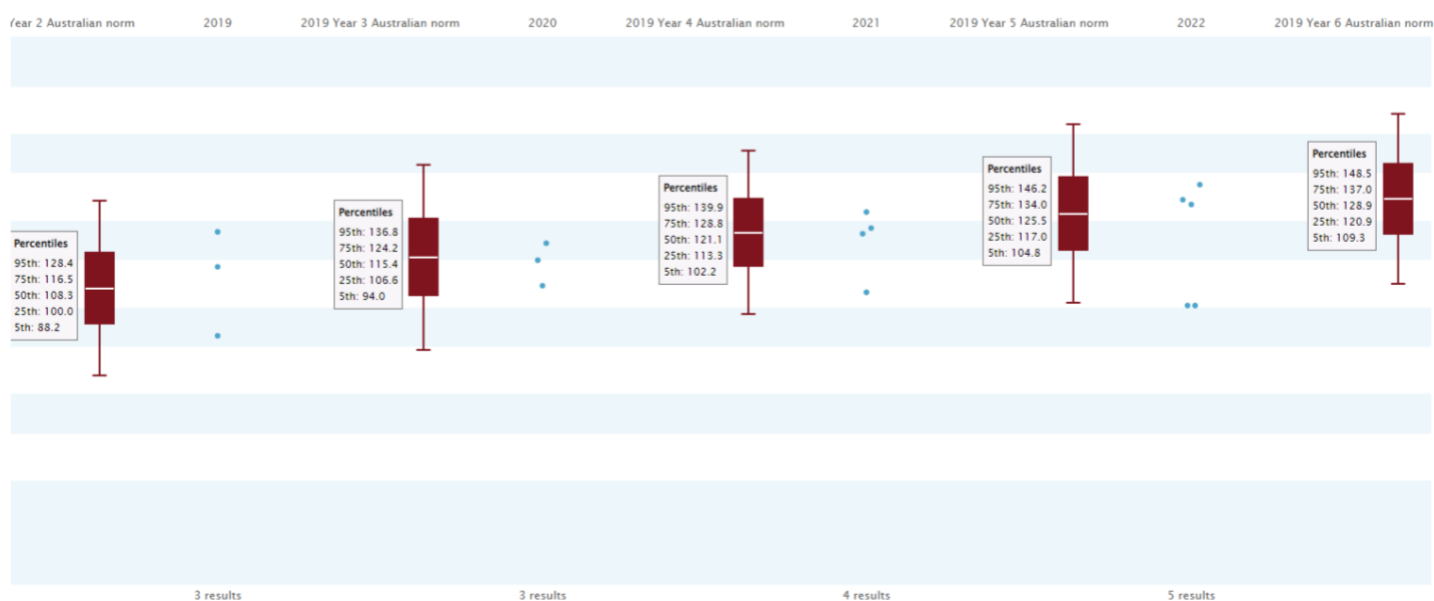

Year 5 results compared to Year 5 Norm data.

PAT Maths 2018 – 2022 46 results

Year 6 results compared to Year 6 Norm data.

PAT Maths 2018 – 2022 18 results

In the 2021 CSIP document stated that ‘our academic focus for 2022 will be to collect and analyse more data sources for achievement in Numeracy and to identify the particular mathematical concepts/skills that our students would benefit most from focusing on.’ This new method of assessment and reporting (PAT Adaptive) allows us to compare all of our students who completed the tests and to see the areas within the strands that our students have performed well in and areas where our students require more support.

The following table are comments generated from analysis of each strand in Mathematics. These strengths are to be celebrated and the weaknesses can be met within targeted classroom teaching and also used to plan professional learning opportunities in 2023.

CSIP Goal 2023 (Education): Literacy- continue to embed guided reading as a key instructional tool, with increasing use of data from running records to inform instruction.

Whilst we use NAPLAN and PAT Data to review our assessment data, this data informs us of our student's comprehension to questions about the passage that they read. In 2022, we have been examining more closely the behaviours that our students show or do not show when they read. This informs us of their reading behaviours and it can identify individual students goals as well as small group reading instruction goals.

We will continue to cement our knowledge of using running record tools effectively to analyse the reading behaviours of our students and, through ensuring our students are reading levelled texts accurately, we will be able to use resources to work on their comprehension skills further.

The NAPLAN data shows that our reading comprehension scores have increased this year, from a decline in previous years, when levelled or targeted reading groups weren't as established as they have been in 2022. There has been a greater increase in growth in the Year 5 cohort and less in the Year 3 cohort. There are a number of EAL/D students and students receiving intervention for reading and spelling skills in the Year 3 cohort, compared to other years.

NAPLAN DATA (Reading)

Year 3 NAPLAN Data graph over time

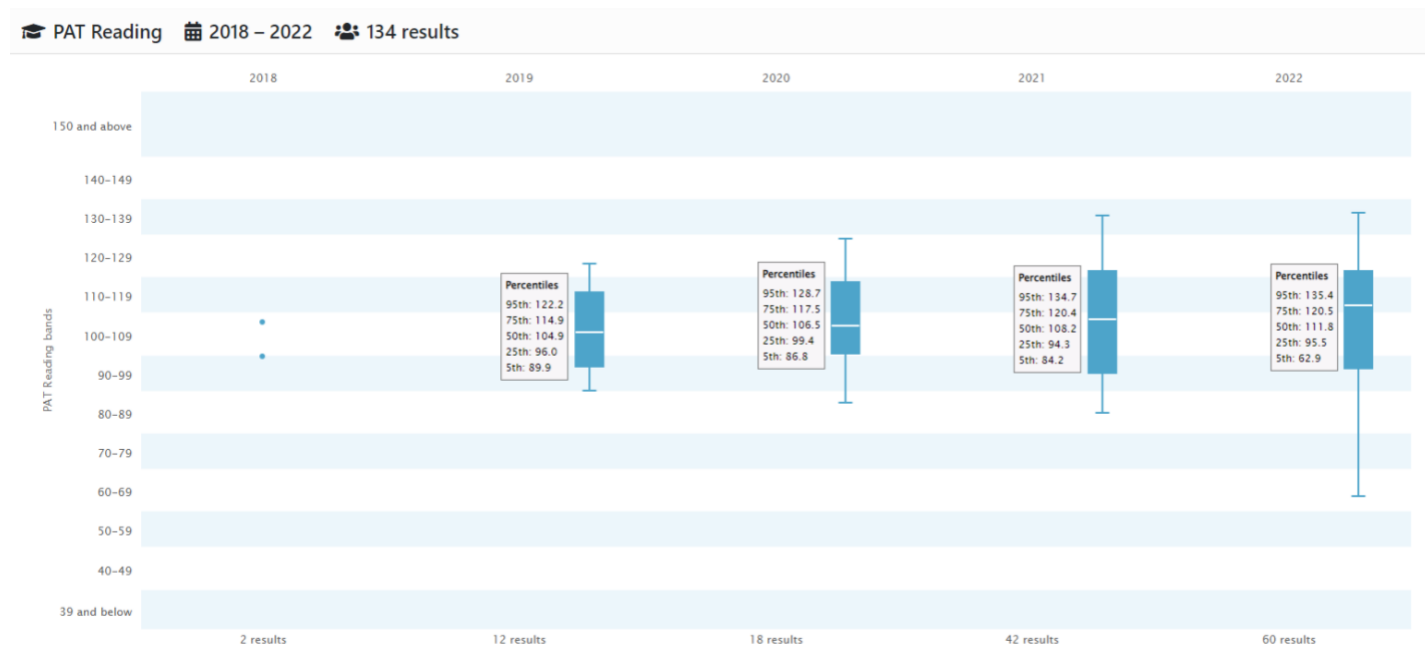

Year 5 NAPLAN Data graph over time

PAT DATA (Reading)

The PAT data table below shows that our students as a whole school are performing within the same range as previous years, although our range of students' comprehension abilities is wider. This is evident in the box and whisker plot for 2022.

This new method of assessment and reporting (PAT Adaptive) allows us to compare all of our students who completed the tests and to see the areas within the strands of Literacy that our students have performed well in and areas where our students require more support.

The following table are comments generated from analysis of each test strand in Reading comprehension. These strengths are to be celebrated and the weaknesses can be met within targeted classroom teaching and also used to plan professional learning opportunities in 2023.
