

# VISION FOR LEARNING

At St Patrick's, we are proud of our heritage and we strive to continue the work of the Sisters of Our Lady of the Missions. Jesus is the centre of our school culture and this is reflected through our motto and ethos of 'Concern'. In partnership with our Parish and families, students are guided to live the example set by Jesus through the Make Jesus Real approach. All teaching and learning reflects the Gospel values, as we support each child in sharing their God-given gifts and realising their full potential.

We have high academic, social and behavioural expectations of our students. We use a range of explicit, collaborative, inquiry and play-based pedagogies to teach the curriculum and prepare students for a 21<sup>st</sup> century environment. Students are supported to become resilient, adaptive learners who can work creatively to solve problems. Learning experiences include both student-driven and teacher-initiated elements. Staff cater for each child's strengths, interests and cultural backgrounds based on individual needs. We believe that timely, targeted, data-based and individualised feedback is essential to effective learning.

We believe in the importance of continually reflecting on student learning and on our own teaching, as we strive to provide the best educational experiences for our students. At St Patrick's, we provide a school environment that enhances and nurtures student learning. We value how the experiences of our multicultural community enrich our school. In all that we do, we strive to show 'Concern for God, Concern for Others and Concern for Self'.
